During the construction period residents in these areas should expect some on-street parking restrictions to allow for construction activities and equipment. The contractor will make every effort to keep inconveniences to a minimum and traffic police details will be present to aid in driveway access/egress and roadway safety. Residents are requested to observe on-street roadway postings and detour signs. Traffic message boards will be used to aid traffic management efforts. Residents traveling through these areas should plan accordingly, allow for travel delays, and should consider alternative routes when possible.

The Department of Public Works would like to thank residents for their cooperation during these improvement projects. If you have any questions please contact Pete Lento at 781-316-3323 or Wayne Chouinard at 781-316-3320
